

VICTORY SYCAMORE ESTABLISHED VALUE FUND

CLASS A: VETAX CLASS I: VEVIX

Q3 // SEPTEMBER 30, 2020

FUND FACTS

Investment Style
Mid Cap Value

Investment Objective

The Fund seeks to provide long-term capital growth by investing primarily in common stocks.

Investment Strategy

In building portfolios, we identify companies that we believe possess the following attributes: better business with above-average financial strength and a sustainable business model; an exploitable valuation disparity between the share's current market value and our estimate of intrinsic value; and fundamental drivers that will narrow the valuation gap. We believe that companies that possess all three attributes offer the greatest upside potential while buffering downside risk.

Investment Team

Sycamore Capital, based in Cincinnati, Ohio, has a long history of mid cap value investing. The investment team led by Chief Investment Officer, Gary Miller, employs a bottom-up value approach to investing. By adhering to a disciplined process, the team seeks to optimize clients' returns with the goal of minimizing the permanent loss of capital.

Past performance does not guarantee future results. The performance data quoted represents past performance and current returns may be lower or higher. The investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. To obtain performance information current to the most recent month-end, visit www.vcm.com. Returns include reinvestment of dividends and capital gains. Performance for periods greater than one year are annualized. Fee waivers and/or expense reimbursements were in place for some or all periods shown, without which, fund performance would have been lower.

Growth of a \$10,000 Hypothetical Investment Class A Shares, without sales charge (9/30/2010-9/30/2020)

Calendar Year Performance (%)

2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	
A Shares, without sales charge	21.41	0.10	12.12	34.43	11.90	0.68	20.66	15.66	-10.23	28.36

Please note: High, double-digit returns are highly unusual and cannot be sustained. Investors should be aware that these returns were primarily achieved during favorable market conditions. The Hypothetical Growth of \$10,000 Chart and the Calendar Year Performance table both assume reinvestment of dividend and capital gains. Performance reflects the deduction of fund expenses, including management fees and other expenses. If sales charges were included, returns would be lower.
